INSOMNIA

ESPRESSO MARTINI BAR

THE BEAN

We begin with the finest organic Arabica coffee, which we source from El Botan Farm in Colombia. This single estate coffee farm has been planting Maragogipe coffee trees since 1931.

ELEVATION: 4430 ft PRECIPITATION: 94.5 Inch/Yr
CHARACTER: FULL BODIED, AROMATIC

THE ROAST

Our micro-roaster produces a fresh batch of roasted beans every evening. The roast is specifically designed to create the very best Espresso Martini; with a long roast and a high temperature. This creates a super rich, dark and aromatic blend.

ROAST TIME: 32.5 min TEMPERATURE CURVE: 160°C - 190 °C

THE GRIND

Flavour is a delicate thing. We ensure that our raw ingredients are always as fresh as possible. Our hot brew options are as fresh as you will find, and our cold brew grinds come straight from our micro-roaster to your glass. You will not find a fresher Espresso Martini.

THE BREW

We have fine tuned our brewing to compliment each Martini on our menu. Our cold brew coffee is steeped for at least 24 hours to maximise flavour, intensity and clarity. It's then pressed to provide the perfect espresso. Cold brewing prevents dilution when mixed with ice, ensuring a robust flavour every time.
